SDGs

LEARNING

Sustainable Development Goals (SDGs) # 3, 4, and 5, are at the core of achieving all other SDGs.

With special focus on, Maternal and Child Health, we can further these goals, and can make this world a better place for everyone.

e-Learning, e-Health, e-Governments Initiative

Purpose

Preparing the next generation of healthcare providers in the international arena, deepening their knowledge and improving the skill set for a career in global health, and global governance is urgently needed. Programs are needed for healthcare providers to provide them with academic training and practical knowledge to assist them in providing national and international health and healthcare. We have the knowledge, means and motivation to act. Let us not wait a moment longer.

All over the world, we all provide, education and health, to multicultural societies. By interacting with different cultures, customs and needs of our communities, we will develop respect for the diversity and embrace it.

Improving Maternal
Health Through
Education: Safe
Motherhood is a
Necessity

Why do we need
improved
collaboration
between
Education Sector
& Health Sector?

NO ONE LIVES IN
HEALTHCARE
SYSTEMS; WE ALL
LIVE IN OUR
HOMES, WITH
OUR FAMILIES
AND
COMMUNITIES

No technical or political approach –
no matter how well intended – has
ever conquered this enormous
challenge: *Education – for – All* and
Health – for – All.
