

## 8<sup>th</sup> Multistakeholder STI Forum, May 2023

### Theme (b): Lessons for improving the science-policy-society interfaces

#### Science and Technology to Educate Sustainable Development

##### Abstract

Women's Health and Education Center (WHEC) has a unique role to play in strengthening the health and educational systems in rich and poor countries alike. **WHEC's e-Learning, e-Health and e-Government Initiative: [Improving Global Partnerships for Education and Health | High-Level Political Forum 2022 \(un.org\)](https://hlpf.un.org/2022/programme/improving-global-partnerships-for-education-and-health)**, published by 2022 High-Level Political Forum, available: <https://hlpf.un.org/2022/programme/improving-global-partnerships-for-education-and-health>  
Serving all UN Member States + territories, and 227 Global Internet Locations.

Harnessing the digital revolution for the benefit of public education, lessons learned – digital revolution can be one of the most powerful tools for ensuring quality education for all; and transform the way teachers teach, and learners learn. If not governed properly, it could exacerbate inequalities, and undermine learning outcomes, as the COVID-19 pandemic has made it all too apparent. Countries should take rapid actions toward full educational connectivity to their population. WHEC will continue to support country actions, and strengthen inclusive digital learning platforms and content, worldwide.

Helping students and supporting them, in their quest to make their lives better, helps to improve the communities too. And that is our mission. WHEC's Projects | Programs in collaboration with WHO, are helping schools and universities, all around the globe, to plan and develop:

1. *Health-promoting schools*;
2. Programs for Youth Development (PYD);
3. Mental Health Programs to Prevent Gender & Gun Violence;
4. How to Handle Life's Challenges for Good Mental Health.

WHEC provides free-access to online e-Learning / e-Health, e-Government initiative to Least Developed Countries (LDCs). Learning, Innovating, Network for Knowledge [**LINK**] **Access Project**, encourages dialogues between developing and developed countries, with special focus on Sustainable Development Goals 3, 4, 5, and 17 to improve health and educational systems, of mutual benefit and mutual respect. Please visit:

We encourage institutions to use this resource to increase engagement, learning, innovation, reproductive health research, and good mental health. With multiple digital solutions, like the WHO Academy, there is a new focus on learning and building competencies, bringing lifelong learning opportunities. The WHEC and WHO Academy aim to reach millions of people worldwide, offering high-tech learning environments. providing learning opportunities for leaders, educators, researchers, health workers, WHO staff and the broader public, and will deliver high quality, multilingual learning, both online and in-person, alongside a cutting-edge simulation center for health emergencies.

Join & Encourage Sustainable Development!
