- Ending Child Marriages – Lessons Learned from the Initiatives in India;
- Foster Inclusive Digital Transformation.

Groups That Have More Difficult Access to Education and Health

Girls

Women

Migrants

Minorities

Disadvantaged population

People with Disabilities

Knowledge Generation and Dissemination

- Robust digital infrastructure, including interoperable systems, is essential for bridging the digital divide and enabling interconnectivity for inclusive global participation, coherent policymaking and digital governance.
- International support and public-private partnerships for infrastructure development are key to enhancing access to stable and affordable electricity, mobile networks and the Internet.
- Sexual and reproductive health is critical to health and wellbeing across the life course, and therefore has to be embedded and integrated with universal health care and universal access to all.

WHEC's LINK Access Project

<http://www.womenshealthsection.com/content/documents/LINK-Access-Project.pdf>

Learning, Innovating, Networking for Knowledge (LINK)

The Women's Health and Education Center's Global Health Line (WGHL) aims to establish in collaboration with programs in low- and middle-income countries, to improve Sustainable Development Goals 3, 4, and 5, improve maternal and child health, in collaboration with the developed countries of mutual benefits and mutual respect, through its LINK Access Project. We believe, education improves health and health improves learning potential. WGHL has been instrumental in developing the syllabus for the continuing medical education curriculum, since 24 October 2002 – currently serving in 227 countries and territories and providing access to evidence-based research and research initiatives in wide variety of women's and children's health and wellbeing projects and programs.

A Public and Private Partnership

- Collaboration with NGOs associated with ECOSOC and UN DPI;
- Reproductive Health Research (RHR) Division of the World Health Organization (WHO);
- WHO Academy; • PMNCH (Partnership for Maternal, Newborn and Child Health) of WHO; • UNESCO;
- WHEC Publications can be accessed freely, from either computers or mobile phones – with internet access in 227 countries and territories;
- We plan development together;
- Online portal and resource to access information on health and related social sciences

Our Initiatives, Our Projects, Our Promise

Women's Health and Education Center (WHEC)

Established in 2001 to
implement and
improve education
and health for all.

Special Focus on
Maternal and Child
Health

Hope in Africa

Sustainable
Development Goals
(SDG)
Learning

Global Partnership for
Education and Health

Quality Education and Universal Health Coverage

Expanding UNESCO Chair Program

- As a multistakeholder and intergenerational platform for collective action for gender equality, our global initiatives will be an asset to UN Member State.
- Foster societies where everyone is included.
- Foster inclusive digital transformation.
- Resettlement opportunities should be complemented by labor migration, family reunion, scholarships and other migration avenues.

Summary and Takeaway Messages

The aim of this NGO, is to understand the potential of social and economic impacts that quality education and improved health can bring in achieving peaceful co-existence.

For policy-makers and individuals alike, this means planning for the future, and working together. Women's Health and Education Center (WHEC) aims to build the capacities of higher education and much more.

Our Brief History:

http://www.womenshealthsection.com/content/documents/Our_Brief_History.pdf

Even though each country has its unique culture, economics and politics - they all share similar challenges. This whole world is a developing country - some have a longer way to go than others.

Thank You

Dr. Rita Luthra
