# Our Global Reach and Strategic Plan 2025 - 2030

---

Our initiatives focus on the importance of supporting those countries and communities that host large number of refugees, promoting the inclusion of refugees in host communities, ensuring the involvement of development actors from an early stage, and developing a ‘whole-of-society’ approach to refugee responses.

WHEC Global Health Line

# Education and Health are Human Rights

**Ageing Population – Time for good policies and supportive health system;**

**Empowering Women – through education and health;**

**Expanding intergenerational platforms and building inclusive societies**

**Healthy Ageing: A Call for Global Action**

<http://www.womenshealthsection.com/content/health/heal/heal026.php3>

Social justice requires healthcare, education, food, water, housing, employment, social protection, and digital technologies, so that no one is left behind.

WHEC's initiatives with the UN, WHO and UNESCO aim to address the underlying causes of poverty and inequality, in a world where it is estimated that more than 600 million people still live in poverty.

## **Navigating Social Development and Building Intergenerational Platforms**

---

1. Ease the pressures on host countries and communities.
2. Enhance refugee self-reliance.
3. Expand third-country solutions; and
4. Support conditions in countries of origin for return in safety and dignity.

## **Key Objectives of our initiatives in Education & Health**

<https://social.desa.un.org/sdn/towards-education-and-health-for-all>

---

# Summary and Takeaways

---

- Foster societies where everyone is included. Both social justice and digital transformation can improve access to essential services for vulnerable communities, creating opportunities for everyone.
- Expanding UNESCO Chair Program and promoting global collaboration.
- Fostering inclusive digital transformation.
- Building the capacity to care.
- Learning – Mutual Benefit & Mutual Respect

Preparing the next generation of healthcare providers in the international arena, deepening their knowledge and improving the skill set of a career in global health and global governance is urgently needed.

Investing in health and education, is investing in people.

We cannot leave anyone behind.

# Thank you

---
