

THE WOMEN'S HEALTH AND EDUCATION ORGANIZATION, INC.

A Partner to Promote Global Health

THE WOMEN'S HEALTH AND EDUCATION ORGANIZATION, INC. (WHEO, Inc.) is not for profit institution promoting maternal and child health worldwide. Established on 1 December 1992 in *The Commonwealth of Massachusetts (USA)*, the organization has been actively working to advance the causes of peace, health and development. It has vision to build infrastructure in developing countries and to create meaningful opportunities for girls and women to participate in global philanthropy. We embrace the tremendous diversity of people, religions, and cultures around the world. In support of this belief, we have established academic and cultural focus at iconic institutions around the globe, to nurture our common interests and potential. By supporting reproductive health and research, open dialogue and objective analysis, we lay the ground work for mutual understanding among nations.

The research and educational efforts of the WHEO, Inc. are sponsored by unrestricted grant provided by Dr. Rita Luthra / Women's Health and Education Center (WHEC) in memory of Mrs. Santosh B. Luthra – the best mother anyone can hope for. To be with her was a gift of love and joy, courage and generosity. The Organization's birth and my mother's birthday happen to fall on the same day – 1st December (lucky coincidence). Let me take this opportunity to brief you on some positive developments that have taken place in the past few years in our program (Continuing Medical Education) development cluster. Meet our network – circling the globe everyday – for health and education.

The purpose of the Continuing Medical Education (CME) is to provide challenging curricula to assist healthcare professionals to raise their levels of expertise while fulfilling their continuing education requirements, thereby improving the quality of healthcare.

The philosophy behind this purpose is based on the belief that continuing education is a life-time commitment requiring knowledge of current trends and developments in the science, technology and economics of healthcare.

We invite you to enjoy these courses for your personal development or share this publication with other healthcare providers.

Rita Luthra, MD

President

Women's Health and Education Center (WHEC)

NGO in Special Consultative Status with ECOSOC of the United Nations

Editor-in-Chief of e-Health Publication
